## Practice the positive values of inspiration

Creativity isn't just a process. It's a value. To become more creative, you have to accept the beliefs and practice the behaviors that help creativity to flourish. For a more inspired and creative life, here are a few of the values you should live:

- **A sense of wonder.** Don't take a cynical, seen-it-all attitude. Pretend you're a child experiencing everything in life for the first time. Ask questions about the world around you.
- **Pursuit of ideas.** Don't hold back. As soon as you feel a spark of interest in something, regardless of how "practical" it seems, let yourself go with it. Follow your ideas wherever they take you.
- **Courage.** You've got to be fearless and not worry about what others may think. Don't try to be like everyone else. Take your own approach, whatever you're doing.
- **Patience.** You can't hurry creativity, so take time to ponder your ideas. Sit down, relax, have a cup of tea, and think things over. That's usually how the best ideas bloom.

In prayer, it's better to have a heart without words than words without heart.
